DETAILED ACTION

Claim Objections

1. Claims 1, 6, 8 and 9 are objected to because of the following informalities:

In claim 1, line 9, "unit" should be ~~remote control device~~.

In claim 6, line 2, "a" should be ~~said~~.

In claim 8, line 2, "member" should be ~~number~~;

Lines 3 and 4, before "memory", ~~said~~ should be inserted;

Line 4, "a" should be ~~the~~.

In claim 9, line 4, "a" should be ~~said~~.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 3 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2, 3 and 9 recite the limitation "said groups" in line 3. There is insufficient antecedent basis for this limitation in the claims.

Claim 9 recites the limitation "the step of determining" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 2622

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 5-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 recites a process for controlling the transmission of control signals, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 5-10 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this

Art Unit: 2622

subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Olen (6750802).

As to claims 1, 4, 5 and 9, Olen discloses the claimed subject matter, the claimed transmitter is met by the transmission portion 50 (Fig. 2), the claimed plurality of favorite channel group keys is met by the favorite channel keys 26 (Fig. 1) and the claimed up/down key device is met by the up and down keys 30a, 30b (Fig.1) (see abstract, Figs. 1, 2, 3A, 3B, 4, column 5 line 3-column 16 line 57).

As to claim 2, the claimed limitation is disclosed by Olen (Fig. 3B, 4, column 10 line 66-column 11 line 56, column 12 lines 31-67, column 15 line 44-column 16 line 50).

As to claim 3, the claimed limitations are disclosed by Olen (Fig. 2, column 5 line 23-55).

As to claim 6, the claimed limitation is disclosed by Olen (column 9 line 34-column 10 line 65).

As to claim 7, the claimed limitation is disclosed by Olen (Fig. 3A).

As to claim 8, the claimed limitation is disclosed by Olen (column 8 lines 8-24, 47-67).

As to claim 10, the claimed MUTE switch is disclosed by Olen (Fig. 1, column 10 lines 6-12, column 15 lines 1-25).
